- Assertive communication
- Problem-solving
- Attention to detail

ABOUT

Advanced knowledge in Front-End development and intermediate skills in Back-End development. Passionate about creating impactful applications that provide value to users.

Valuable social and communication skills honed through my background in Psychology.

Committed to delivering exceptional results and creating meaningful experiences for users.

FORMAL EDUCATION

2020 - 2023

Psychology Degree

Universidad de Barcelona

Studying Psychology has brought me to the acquisition and enhancement of social and emotional skills that can provide value in any job position.

2018 - 2020

Bachillerato (High School Diploma)

IES Nervión. Seville

2015

Language Exchange Program

Brighton, United Kingdom

TECHNICAL PROJECTS

E-commerce Site

<https://online-shop-five-alpha.vercel.app/>

- Implemented React functionalities such as State and Context, and Next.js functionalities such as Dynamic Routing and SSR.
- Employed the Sanity library to ease the component-based code structuring, and the Stripe library to build the payments page.

CRUD Application

<https://think-share.vercel.app/>

- Built and managed a non-relational database (MongoDB) through REST API's, allowing to create, read, update and delete data.
- Designed using a CSS framework (TailwindCSS).

Wordle Game

<https://wordle-zeta-five.vercel.app/>

- Developed with TypeScript to avoid errors with a stricter code.
- Used ESLint to detect errors and bad practices and increase control on my own code.
